8 - THE SAFETY OF OUR TEAM

Reception employees manage all aspects of the golf club that are customer oriented. Our measures guarantee your safety, together with club members, guests and visitors.

- There will always be an employee present at the Reception during service hours.

- At the Reception counter, a protective acrylic will be installed.
- Personal protection equipment (masks and/or visor and protective gloves) will be made available to all our employees.
- Disinfectant and cleaning solutions will be provided at the service desk.
- Employees must always remain at least two meters from the guests (the safety distance will be marked on the floor).
- All work areas and contact points will be cleaned and sanitized regularly.

The maintenance team, which has remained working since the beginning of this pandemic, complies with the following protective measures:

- Greenkeepers are isolated on the course most of the time, minimizing the risk of cross contamination during work.
- Scheduled starting times and break times to avoid social gatherings.
- Face masks used as needed.
- Disinfectants and protective gloves will be provided to employees for regular use.
- Work vehicles will be mostly limited to individual use.
- Machines used for the course maintenance will be thoroughly washed after use, including disinfection of controls.

We believe that with these measures, the conditions are met so that all golfers can start using our golf course.

These measures were outlined in the interest and safety of our associates and players, so we count on everyone to strictly comply with the measures applied. Failure to do so may lead to the new closure of the facilities.

The present rules may at any time be changed according to the recommendations of the General Health Board or at the initiative of The Silver Coast Golf Club Management.

We hope to be able to return to full normality soon.
