Bianca Sands on Grace Bay recently unveiled The Villa, a private, four-bedroom, five-bath beachfront penthouse suite. The Villa is now available for holiday bookings.

The 5,930-square-foot space accommodates eight travelers and starts at a rate of \$5,000 per night for four-night minimum stays. The oversized master bedroom boasts its own living area and balcony. Second and third bedrooms feature king-sized beds, while a dedicated children's room offers two bunk beds and a play area. An additional terrace provides ample space and a wet bar.

Beyond the panoramic beach views and spacious accommodations, the modern property includes a high-end chef's kitchen, private chef access, stocked kitchen, luxury bedding and more. Guests also have access to the resort's outdoor infinity swimming pools, full-time concierge and other services. It's additionally within easy walking distance of premier shopping, dining and adventure activities such as snorkeling and excursions.

"The Villa at Bianca Sands provides an exceptional experience unlike anything available in Turks & Caicos," said Tendra Musgrove, general manager, Bianca Sands on Grace Bay. "Our splendorous beachfront penthouse suite provides breathtaking surroundings and countless opportunities for relaxation and personalized experiences tailored to each guest.
