Fire Safety In case of fire, do not use the elevator!!! For your safety, Circa 39 suggests that you familiarize yourself with the location of the nearest fire exit stairway and with the correct procedures in case there is a fire. In the unlikely event of a fire, please act immediately when you hear the fire alarm:

If the fire is inside your room Leave your room and close the door. Call the Front Desk or pull the fire alarm.

If the fire is not in your room Test the entrance door carefully with your hand for heat before opening!

If the door is HOT:

- Do not open the door! Phone for help.
- Fill sink with water and seal cracks with wet towels.
- Cover your face with wet towels and wait for help.

If the door is COOL:

- Take your room key.
- Open the door slowly.
- Walk to the nearest stairway.

If exiting down is unsafe, return to your room and follow above instructions for “If the Door is HOT”.

If hall is smoky, stay low.
