# HEALING THERAPIES

Mind your body. Embody your mind. Our exclusive healing therapies feature a full range of massage modalities to enhance healthy sleep patterns and to relax the mind and body. Allow our experts to guide you toward the best treatments and therapies to help improve alertness, mental clarity, muscle relaxation and circulation while reducing stress and anxiety.

#### **ACUPUNCTURE** – 60 | 90 MIN

Our licensed acupuncturists use a series of fine needles to restore balance, and elevate the mind and spirit. Acupuncture relieves pain, enhances sleep, alleviates anxiety and stress, and treats acute and chronic muscular and degenerative conditions. 30-minute follow-up appointments only available upon completion of any 60/90-minute service experience.

#### ACUPRESSURE - 30 | 60 MIN

Acupressure is a therapy developed over 5,000 years ago as an important aspect of Asian, especially Chinese, medicine. This treatment uses finger pressure rather than fine needles on specific points along the body to reduce stress, tension and alleviate aches and pains. This release allows energy to flow more freely through the meridians, promoting relaxation, healing and the restoration of proper function.

#### **CUPPING** - 60 MIN

In this traditional Chinese medical technique the therapist uses heat to create a vacuum in a cup, then quickly places it on the body using a gliding motion along the skin. The resulting suction moves energy, or Qi, to increase local circulation, relieve pain and promote healing. Cupping may be performed on the back and shoulders or along the thighs and upper buttocks to help reduce the appearance of cellulite. Cupping may cause bruising.

#### CRANIOSACRAL - 60 MIN

Craniosacral therapy is a gentle, noninvasive form of bodywork that addresses the bones of the head, spinal column and sacrum. This treatment seeks to restore the natural position of the bones and can decrease stress from chronic injuries as well as provide relief from migraine headaches, neck and back pain. For this experience you will be required to wear loose-fitting clothing for the session.

#### MYOFASCIAL RELEASE - 60 MIN

This powerful treatment focuses on fascia, the tough connective tissue that surrounds, separates, and supports muscles throughout the body. Your therapist locates areas that feel tight and immobile, and using focused pressure and gentle stretching, works to release the fascia, improving mobility and reducing pain and tension.

#### **SINGING BOWL THERAPY** – 60 MIN

This ancient sound healing and massage practice harnesses the body's own vibrational and material properties on a cellular level. The subtler effects can include regulating energy flow in the astral body. The bowls can be used to activate the chakras and remove energy blocks to promote good health. The mind is centered and focused on the sound.
