METHODOLOGY

The *Condé Nast Traveler* Readers' Choice Awards survey was made available through a secure website at ontraveler.com/vote. This year's tabulation of results from hundreds of thousands of respondents who submitted ratings during the sweepstakes period of April 1 through June 30, 2018, was done by Condé Nast Co/Lab. The questionnaire contained lists of candidates in various categories (Cities, Hotels, etc.). Candidates must receive a required minimum number of responses and a minimum overall rating to be eligible for a Readers' Choice Award. Candidates are judged on a set of criteria relevant to their category, based on a standard five-point scale converted to a percentage: excellent, very good, good, fair, and poor. The average of these ratings determines the final score based on five decimal points, with two decimal points being published. For example, the score of 97.88 for the Kimpton Rowan Palm Springs Hotel, No. 1 in Southern California (above), represents the average of ratings the hotel received from respondents for all criteria relevant to hotels and resorts: rooms, service, food, design, location, activities/facilities, and value.
