

INTERCONTINENTAL.
BUCKHEAD ATLANTA

Our Promise: Nothing Comes Before Clean

At InterContinental Buckhead Atlanta, your health and safety remain our top priority. From public areas to meeting spaces to rooms and suites, we've implemented a range of protocols to ensure a safe and stress-free meeting environment.

Public Spaces

Our layouts have changed to encourage physical distancing between guests and staff in all areas, and contents removed to reduce contact points.

We've increased the availability of hand sanitizer, sanitizing wipes, and other necessary personal protection equipment.

We've introduced a guest communication handout outlining details for enhanced health & safety guidelines and operational hours and protocols for all outlets, the business center, gift shop, spa, fitness center, and pool.

We've compiled a comprehensive contact list of area medical providers and hospitals, available 24/7 at the front desk and through security.

Our housekeeping team has implemented enhanced cleaning and sanitizing of high touch-point areas at the front desk and lobby/public spaces using hospital-grade sanitization products.

We've established maximum occupancy levels and are monitoring the number of guests in elevators & public restrooms to ensure compliance with physical distancing guidelines.

New signage with health & safety reminders has been introduced. We are training all hotel employees on new strategies and procedures.

Meeting Spaces

We've introduced new meeting room set-up and floor plan diagrams, seating charts and maximum room capacities to comply with physical distancing guidelines.

Banquet catering is now served in individual portions and buffet meals are served by the culinary team to minimize contact.

We have introduced ultra-violet hand-held device sanitizers and electrostatic foggers for use in all meeting spaces.

A dedicated Meetings Concierge has been appointed to sanitize meeting spaces, tables, and high-touch areas.

Hand sanitizer and alcohol wipes are now available for attendees in all meeting spaces.

Our meeting space bathrooms are no-touch areas and are continuously sanitized.

No-touch forehead thermometers are now available to all meeting planners.

Rooms & Suites

Our housekeeping team has implemented enhanced cleaning and sanitizing of our guest rooms and suites using hospital-grade sanitization products.

We are training all hotel employees on new strategies and procedures. All employees have mandatory temperature checks upon arrival to work.
