

PSAV Meeting Owl

Introducing the Meeting Owl, an all-in-one video conferencing solution for conference or huddle rooms. USB plug 'n play and works with ZOOM and all other web conferencing platforms. The Meeting Owl is optimized for groups of 2-12 people working collaboratively.

Use the Meeting Owl in Conference Rooms

The Meeting Owl also works well in small conference rooms where 2-12 people are sitting within a 12-foot diameter of the Owl.

Use the Meeting Owl in Huddle Rooms

Huddle rooms often have a camera mounted above or below the television, making remote meeting participants feel like a fly on the wall. The Meeting Owl brings your remote team members into the room and gives them a seat at the table.

Dynamic video & audio.

The meeting Owl's 360° lens automatically focuses on users as they speak, while 8 omnidirectional microphones locate the presenter and speakers stream exceptionally clear audio.

All-in-one.

Combines video and audio to simplify your meeting set up. Like a dynamic and sophisticated webcam, but better.

No installs, 100% compatibility.

Just connect via USB and meet. Owl operates software-free and is compatible with any web-based meeting platform.

Set Up Using a Laptop

1. Connect the Meeting Owl to power and plug the USB into a laptop.
2. Start the meeting in the video conferencing platform of choice.
3. Select the Meeting Owl as a video, mic and speaker input.
4. Connect the laptop to the in-room display.
