Spa experiences for the Winter season.

Winter Warming Ritual | *4 Hour Spa Escape with a glass of wine \$425*

Unwind while feeling warm, luxurious and rejuvenated from head to toe. Begin your ritual with a curative, relaxing massage to calm the overactive mind. Next, indulge in our skin comfort facial which will hydrate and soothe parched winter skin. Conclude your experience with our warming paraffin manicure and pedicure treatment designed to relieve any aches and pains the colder weather can bring.

Champagne Toast Manicure and Pedicure | *40 Minute Manicure & 40 Minute Pedicure with a glass of wine \$120*

Nothing celebrates the holiday season better than indulging in our champagne toast manicure and pedicure. Soak your hands and feet in our luxurious champagne soak while tiny bubbles work as a natural exfoliant and improve blood circulation. Sit back and relax as you sip on bubbly and drift into a state of relaxation while enjoying a rejuvenating hand and foot massage. Cheers!

Scent of the Season Massage | *50 Minute Massage with a glass of wine \$155*

Take a moment away from the hustle and bustle of the holiday season to pause, reflect and enjoy the moment. A custom blend of peppermint and eucalyptus proven to ease the mind whilst cooling and refreshing the skin. This massage helps ward off any unwanted chills the winter season brings by using essential oils that lend their soothing properties to maintain clear breathing and boost your immune system. Take a deep breath as your worries drift away.

Winter Renewal Body Treatment | *50 Minute Body Treatment with a glass of wine \$155*

Drench dry winter skin in hydration. This toning treatment restores skin's beauty and freshness thanks to an intense exfoliation that boosts the skin's hydration while visibly improving tone and texture. Reveal visibly smooth and silky skin at your next holiday gathering.

Lifting and Brightening Facial | *80 Minute Facial with a glass of wine \$180*

Achieve visibly improved natural radiance with a non-surgical facelift using micro-current technology that noticeably lifts, firms and brightens the skin.
