The Gold Room is the newest dining option at Lotte New York Palace. It is heavily influenced by the opulent hotels of a bygone era. The room features the original gilt ceilings from 1882 and classic and hand-crafted cocktails and cuisine. The Gold Room is open Monday–Friday from 4 p.m. through midnight.

“The Gold Room is undoubtedly the most iconic architectural dining setting in New York City,” said Rebecca Hubbard, general manager, Lotte New York Palace. “We are thrilled to invite our hotel guests, local residents and business executives to experience the new innovative cocktail and dining concept of this Renaissance-style bar against the striking backdrop of the historic Villard Mansion.”
