

The 10 Best Warm Weather Destinations With Direct Flights

Beth Graham | January 18, 2023

With direct flights from many cold-climate U.S. and Canadian cities, you can trade in your parka for a pina colada and be on a warm beach in no time.

If you're looking for an excuse to replace your snow shovel with a sand shovel, we've got you covered. Dig out those bathing suits and flip-flops, throw them in a suitcase, and within a few hours, you'll be lying on a warm, sunny beach with a cocktail in your hand. Fortunately, the airlines know how desperate you are to escape the cold, so chances are there's a direct flight from your closest major city to a lounge chair on the beach with your name on it.

Bridgetown

WHERE: Barbados

Direct flights from Montreal, Boston, New York, Toronto, Calgary, Seattle, Washington

Breathe in the fresh ocean air of Barbados at [O2 Beach Club & Spa](#), a brand-new, all-inclusive luxury resort located along the island's southern coast. You'll be tempted to spend your days at Brisa, one of the island's only rooftop pools, taking in ocean views while sipping on a tropical craft cocktail. Sign up for one of the resort's unique classes and learn to cook local cuisine or learn to play the steel pan drum. If you're in need of a little pampering, O2 features a new oceanview 5,600-square foot, full-service aqua spa with the only Hammam treatment room in Barbados.
