For Immediate Release

Cambria Hotel Louisville Downtown-Whiskey Row Earns LEED® Certification

Louisville, Kentucky - April 18, 2022: O'Reilly Hospitality Management, LLC, is proud to announce Cambria Hotel Louisville Downtown Whiskey Row was recently awarded LEED v4 Silver level of certification. LEED (Leadership in Energy and Environmental Design), developed by the U.S. Green Building Council (USGBC), is the most widely used green building rating system in the world and an international symbol of excellence. Through design, construction and operations practices that improve environmental and human health, LEED-certified buildings are helping to make the world more sustainable.

Developed by O'Reilly Hospitality Management, LLC, the 128 room, five-story, full-service Cambria Hotel is located at 120 South Floyd Street in the heart of downtown Louisville, in the vibrant entertainment and Bourbon district. In partnership with Entegri, the newly opened property achieved LEED certification for implementing practical and measurable strategies and solutions in the areas including sustainable site development, water savings, energy efficiency, materials selection, and indoor environmental quality.

Sustainable design and operations are priorities for O'Reilly Hospitality Management, LLC. The company, headquartered in Springfield, MO, believes that green building practices are crucial to the wellbeing of the natural environment, their guests and team members. The Cambria Hotel Louisville is another example of the company's ongoing commitment to smart, cost-effective building practices throughout their projects.

Cambria Hotel Louisville is the eighth LEED certified project within the award-winning portfolio of O'Reilly Hospitality hotels, restaurants, and entertainment venues. "Sustainable and environmentally responsible development and operations are a core value and cornerstone of our company culture and mission," says Tim O'Reilly, CEO of O'Reilly Hospitality Management, LLC. "We continually examine our development processes and operations to find ways to be more sensitive to the natural environment and the USGBC's LEED program is substantial and positive part of achieving our goals."

“The Cambria Hotel in Louisville is the fourth certified project in which Entegrity has partnered with O'Reilly Hospitality Management,” said Katie Breshears, Entegrity Senior Project Manager. “OHM has demonstrated extraordinary sustainability leadership by consistently integrating environmental solutions into each of their projects. The result of their commitment is a hotel that not only reduces the impact on the environment, but also provides a healthy space for employees and guests. We look forward to continuing our work with OHM.”

ABOUT USGBC

The U.S. Green Building Council® is committed to a prosperous and sustainable future for our nation through cost-efficient and energy-saving green buildings. With a community comprising 78 local affiliates, more than 20,000 member companies and organizations, and more than 140,000 LEED® Professionals™, USGBC® is the driving force of an industry that is projected to contribute \$554 billion to the U.S. gross domestic product from 2009-2013. USGBC leads an unlikely diverse constituency of builders and environmentalists, corporations, and nonprofit organizations, elected officials and concerned citizens, and teachers and students. USGBC is the developer of the LEED green building certification program and the convener of the Greenbuild® International Conference & Expo. For more information, please visit www.USGBC.org.

ABOUT LEED

LEED (Leadership in Energy and Environmental Design) is an internationally recognized green building program that provides building owners and operators with a framework for identifying and implementing practical and measurable green building design, construction, operations, and maintenance solutions. For more information on LEED, please visit www.USGBC.org.
