**Newest O'Reilly Hospitality Management Property Awarded Prestigious LEED Green Building Certification**

**Springfield, MO – December 18, 2022:** O'Reilly Hospitality Management, LLC, announced the newly opened Fairfield Inn & Suites Bonita Springs has been awarded LEED v4 Silver level of certification. LEED (Leadership in Energy and Environmental Design), developed by the U.S. Green Building Council (USGBC), is the most widely used green building rating system in the world and an international symbol of excellence. Through design, construction and operations practices that improve environmental and human health, LEED-certified buildings are helping to make the world more sustainable.

Located at 28090 La Plaza Bonita Loop, Bonita Springs, Florida, the 113-guestroom hotel opened in September 2022, just minutes away from Everglades Wonder Gardens and a wide range of beaches as well as shopping and dining. Developed by O'Reilly Hospitality Management, LLC, the property features group meeting space, a pool and fitness center, and a bar and lounge with a beautiful tropical saltwater fish tank through which guests can have an indoor/outdoor view from the bar. In partnership with Entegriety, the newly opened property achieved LEED certification for implementing practical and measurable strategies and solutions in the areas including sustainable site development, water savings, energy efficiency, materials selection, innovation in design and indoor environmental quality.

Sustainable design and operations are priorities for O'Reilly Hospitality Management, LLC. The company believes green practices are crucial to the wellbeing of the natural environment, their team members, and guests. Fairfield Inn & Suites Bonita Springs is the tenth LEED certified project within the award-winning portfolio of O'Reilly Hospitality hotels, restaurants, and entertainment venues. "The LEED system essentially provides a roadmap to designing a sustainable building that lowers our carbon footprint and helps preserve the precious resources of our planet," said Tim O'Reilly, CEO of O'Reilly Hospitality Management, LLC. "Our company is committed to environmental responsibility, and LEED is a tremendous tool that helps us achieve that goal."

"Transforming our buildings and spaces happens one project at a time. O'Reilly Hospitality Management, LLC understands the value of LEED and has shown extraordinary leadership in reshaping the market," said Peter Templeton, president and CEO, USGBC. "The success of LEED is due to the partnership and support of those committed to advancing green building and

sustainability. Each new LEED certification brings us one step closer to revolutionizing the spaces where we live, learn, work and play."

#### **ABOUT USGBC**

The U.S. Green Building Council® is committed to a prosperous and sustainable future for our nation through cost-efficient and energy-saving green buildings. With a community comprising 78 local affiliates, more than 20,000 member companies and organizations, and more than 140,000 LEED® Professionals™, USGBC® is the driving force of an industry that is projected to contribute \$554 billion to the U.S. gross domestic product from 2009-2013. USGBC leads an unlikely diverse constituency of builders and environmentalists, corporations, and nonprofit organizations, elected officials and concerned citizens, and teachers and students. USGBC is the developer of the LEED green building certification program and the convener of the Greenbuild® International Conference & Expo. For more information, please visit [www.USGBC.org](http://www.USGBC.org).

#### **ABOUT LEED**

LEED (Leadership in Energy and Environmental Design) is an internationally recognized green building program that provides building owners and operators with a framework for identifying and implementing practical and measurable green building design, construction, operations, and maintenance solutions. For more information on LEED, please visit [www.USGBC.org](http://www.USGBC.org).
