Shawnee Island Glamping

FAQ's

Is everyone camping in the same area?

“Shawnee Island Glamping” offers a communal setting. With four glamping tents in the campsite, there may be several families and/or individuals camping on the island at the same time. Tents are set-up in close proximity to each other (probably 10 – 12 feet between tents). It really isn't as intimidating as it sounds, as a matter of fact it can be lots of fun and a terrific

opportunity to meet other people and share experiences. If you are a light sleeper or have a habit of picking fights with other people, a communal setting may not be your “cup of tea”. We try our best to keep the environment cheerful and as engaging as possible.

Here are several tips to assist in navigating a communal setting:

Leave your phone on vibrate. If you're going to answer it, walk to the edge of the campsite. It may be important to you, but no one else wants their socializing (or sleep) interrupted.

Be respectful. Respect people. Respect their culture. Respect their space. Respect their belongings.

Introduce yourself. A polite greeting and introduction go a long way to creating a fun environment.

Be quiet. Just use your common sense here, just be considerate of people who may be trying to sleep.

What are the camping risks and rewards?

On any outdoor adventure you may encounter situations that are precarious and can be dangerous. During each camping experience you will be on the river in a canoe. This experience is magical, but may also result in falling in the water, getting your feet muddy or wet, getting items of clothing or bags wet, etc... Our staff will do its best to ensure safe, dry transport. You will also be in the outdoors. You may encounter spiders,

mosquitoes, ticks, and other insects. Please plan to bring bug spray to help ward off any of nature's friends. Our staff will provide items to assist keeping bugs away, but remember, you are in nature. You may face animal encounters. This area of Pennsylvania frequently sees deer, river otters, raccoons, squirrels, fox, coyote, bears, and others of Mother Nature's kingdom. We strongly believe that these animals want nothing to do with you, just as much as you want nothing to do with them. Safety first. Do not paddle alone. Do not go on a hike alone. Take a lantern or flashlight with you in the dark. Please do not try to touch or feed the animals.
