## WINE PHILOSOPHY

As Walla Walla's premier luxury hotel, the wine list at the Marcus Whitman Hotel focuses primarily on local vineyards and producers. We are blessed to be in one of the world's most exciting wine regions. From the coastal climates of the West, to the desert climates of the East, Washington State is unmatched in varietals, styles, and quality. We hope you enjoy our offerings. Please let us know if you have a personal favorite not listed. You may find it here on your next visit.

*The Ultimate Wine Country Experience!*

## WASHINGTON AVA REGIONS

What is so unique about Washington wine country? First, there two distinct sides to Washington State; Eastern Washington, where most of the vinifera (wine) grapes are grown and which has desert like conditions and sparse population; and Western Washington where the temperate conditions are more conducive to growing cooler climate vinifera and non-vinifera grapes, but where most of the state's population resides.

The individual soils of Washington State vineyards vary, but overall it is said that Washington has sandy, silty, loam soils as a result of ancient cataclysmic flooding, volcanic and glacial action. These soils drain well and are conducive to deep root growth - important for vines to make it through cyclical freeze events in Eastern Washington. These soils also stop the vineyard pest phylloxera from spreading, allowing our vinifera vines to be planted on their own rootstock.

### Walla Walla Valley AVA

Established in 1984, the Walla Walla Valley AVA has a rich history of wine grape growing by the immigrants who settled this area. Walla Walla was once the largest city in the Washington territory so plantings go back to the 1800's. This area only has about 1,600 acres of vineyard due to the threat of "freeze events".

Historically, wineries established in Walla Walla (over 100 now call Walla Walla home) sourced their wine grapes from the Yakima and Columbia Valleys, but that is changing as growing practices improve. In fact, Walla Walla is on the forefront of sustainable wine grape growing establishing organizations such as the Walla Walla Valley Vine, The Winegrowers Sustainable Trust. The most widely planted grapes grown here are Cabernet Sauvignon, Merlot, Chardonnay and Syrah. Walla Walla gets a bit more rain than other wine growing areas with about 12 inches of annual rain fall.
