Philosophy Most of our treatments at The Palms Aveda Spa are unisex yet we have carefully selected treatments that address the areas men neglect the most. Typically the man's face, back, hands and feet are put at risk from daily wear and tear, sun exposure and heavy sports activity. Like our entire menu, our male-specific treatments aim to renew your mental and physical well-being.

GENTLEMEN'S FACIAL

Men's skin, specifically the face, is different than that of women. It tends to be thicker, oilier and sensitive due to daily shaving, continuous exposure to the sun and lack of a daily skincare regimen. We will customize your treatment to your specific needs, remove impurities that cause breakouts, blackheads and ingrown hairs, and enhance your experience with a scalp, face, neck and shoulder massage to relieve everyday tension.

GENTLEMEN'S BACK FACIAL

Our therapists will provide a deep cleansing treatment of the back, with a focus on massage to boost circulation and open pores for proper cleaning and exfoliation. Pressure points and deep massage strokes make this back facial much more than just a "pampering" skin treatment – it will deeply relax and rebalance you.

GENTLEMEN'S MANICURE & PEDICURE

During the manicure, our nail technicians will treat your nails and cuticles for proper maintenance, offer a relaxing hand and forearm massage and finish it off by your choice of buff or clear polish. The pedicure will revive tired feet and legs while giving attention to the common problem feet encounter - dry and rough skin. We will treat your nails and cuticles, provide a foot and lower leg massage including exfoliation and finish with your choice of buff or clear polish.

MEN'S RETREATS
