SAFE HARBOR RUM STORY

Just 1 bridge from Key West resides the historic Safe Harbor, a window to the working waterfront on Stock Island. Historically known for fishing, shrimping, and the best local watering holes, the harbor is still home to dozens of boats and vessels, Florida Keys' best dock-to-dish restaurants, and now, a distillery. Our local, boutique operation distills in small, handmade batches using a blend of all-natural cane sugar and black strap molasses, creating a rich and flavorful product worthy of the last piece of the original Key West. We know you will enjoy drinking this rum as much as we enjoyed distilling it.
