Anguilla, Eastern Caribbean

Anguilla is the northernmost island in the eastern Caribbean, a British Overseas Territory. Its dry warm climate, 33 sandy beaches, and coral reefs attract visitors who are

undoubtedly happy to see [Anguilla's recovery from the damage caused by](#)

[2017's Hurricane Irma](#). Snorkeling and diving are popular activities, with the island's abundant sea life and shipwrecks for fascinating exploring. The Caribbean's oldest independent music festival, Moonsplash, will take place from March 21-24, featuring three days of top reggae performers on Rendezvous Beach. The annual Festival Del Mar Anguilla will celebrate the sea with fishing competitions, swimming races, crab races, cooking contests, and live music for two days, March 20-21. Horseback riding on the beach is more than a glamorous fantasy in Anguilla, but lounging on the beach is still the number one thing to do for most visitors. [Zemi Beach House](#), a 65-room luxury boutique hotel on Shoal Bay Beach, offers terraces with oceanfront views and three pools with cabanas, including an infinity pool with an underwater window facing the beach. The first luxury property to reopen after the hurricanes, Zemi Beach House also boasts four food and beverage venues, spa, tennis courts, and fitness center. Flights to Anguilla connect through San Juan and neighboring Saint Maarten, making travel there quite convenient.
